

R.A.I.N.B.O.W.

Solution:

To solve this puzzle, imagine that you are turning the wheel. If the A in the upper ring is turned so that it is above the Z in the lower ring, then the T in the upper ring coincides with the letter S. Apply the seven clues to the seven letters of your codeword, TESTING, to reveal the answer: SUCCESS.

1. A → Z = T → S
2. A → Q = E → U
3. A → K = S → C
4. A → J = T → C
5. A → W = I → E
6. A → F = N → S
7. A → M = G → S
